

# Etherlime - open source blockchain development framework

# Who am I ?

Name: Ognyan Chikov

Job Title: Software Developer

Company:  LimeChain

Email: [ognyan@limechain.tech](mailto:ognyan@limechain.tech)

# Blockchain consulting and development

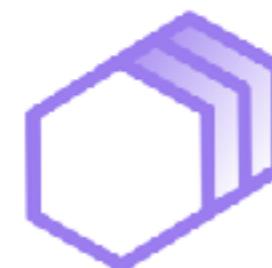

## Private and Public Blockchain Development

We use open shared ledgers like Ethereum to publically store, validate, and certify the information your business needs. Develop contracts which automate their own execution and enforcement.

## Smart Contracts Development and Audit

Develop contracts which automate their own execution and enforcement. Done well, they're more secure than a traditional contract, save you money by eliminating middlemen.

## Crowdsale Services

Leverage our deep knowledge and experience building out the technical side of ICOs to securely raise the funds your business needs to thrive.
